

ECRA Online Seminar OS21-03

“Update on Carbon Capture Technology”

10 June 2021

Time Zone: Central European SummerTime (CEST)

Draft Agenda

09:00	Welcome and introduction	<i>Volker Hoenig/ Kristina Fleiger</i>
09:15	Overview of current projects and KPIs	<i>Volker Hoenig</i>
09:45	Oxyfuel technology 1 st generation	<i>Kristina Fleiger</i>
10:15	Coffee break	
10:45	polysius® pure oxyfuel - A gateway to climate-neutral cement	<i>Georg Locher thyssenkrupp Industrial Solutions AG</i>
11:15	Calcium Looping technology at TRL7 in the cement industry: Status of CLEANKER pilot plant and experimental campaigns	<i>Luigi Buzzi, Buzzi Unicem</i>
11:45	Lunch break	
12:45	Norcem Brevik CCS Project (Chemical post-combustion technology)	<i>Per Brevik Norcem</i>
13:15	Cryocap FG: A combination of cryo and adsorption technologies to decrease the cost of carbon capture	<i>Guillaume Rodrigues Air Liquide</i>
13:45	Coffee break	
15:15	Update on the progress of the LEILAC projects and virtual site tour	<i>Daniel Rennie, Calix</i>
15:45	Funding options	<i>N. N.</i>
16:15	Summary and discussion	
16:30	End of the seminar
